

Low income? No computer at home? Maybe we can help....

Welcome to the **Computer in every home** project. A free computer in every home for those who do not already have one. If you are on a low income or benefits, then we can help make this a reality.

These computers are offered to you **free** of charge, **no cost involved** whatsoever but we only ask that you request one if you need one. They are for **children** who need one for schoolwork or **adults and families** to get into the advantages the world of IT brings.

To find out more contact us on 0161 5050 313, email us at hello@myoutsourcedit.co.uk or visit our website <https://bit.ly/freecomputerproject>
