"Twenty years on air and the jokes are still the same...."

3 - 8pm

THE BANDS

A Me B

A Me B is not your 'typical' teenage artist. With heartfelt and meaningful lyrics which people of all ages can relate to, this young northerner is about to take the British Urban scene by storm. When she was 17, Amy was described 'as a polished act' by BBC 'Introducing'. 'A Me B' (real name Amy Burns geddit?) has been producing and writing her own material since the age of 12.

She can be heard regularly on BBC Introducing, Rinse FM and most Manchester radio stations and with the forthcoming album release and accompanying tour, expect to hear a lot more from A Me B in 2012!

Citizen

Citizen are a live five piece collective from Manchester who have created an innovative sound to coincide with the ever changing face of music. Their bass driven sound really blurs the lines between live and electronic production, aiding them along the way to become one of dance music's most exciting new talents.

Coldside

Coldside have mastered their craft and then some. Coldside have no genre and have no category and that's how they want it. They take their sound from so many styles in the world and infuse them with hard hitting bass lines, cutting edge lyrics and hooks that you won't be able to stop singing for a week. They combine music from hip hop, dubstep, pop, rock, indie and soul to name but a few. Zane, Aitch and Red are... Coldside.

Dirty North

Dirty North from Wythenshawe, Manchester are an uncompromising young trio, combining Hip-Hop, Rap and Reggae. Razor sharp lyrics, amazing beats and dub bass - the band have a unique sound that has captured the attention of many. Reni of the Stone Roses rates them as the only great new band around.

INEGO

INEGO are a space pop rock band from Manchester named after a character in the 80's cult classic film The Princess Bride. Signed to Manchester label Sugarhouse Music/Fortysix Records in early 2011, they released their first single 'Your Style Defeats Me' in Summer 2011 (available on iTunes now) and are due to release their full EP in late 2012.

Frazer King

This young six piece are well known for being caustic, vital and free from the allurements of passing trends. Their music has been described as 'unclassifiable'.

As a live entity, Frazer King have a notorious reputation. 'Frazer King are pure genius. Pure musical genius... Wild-eyed charisma that fires a generation... Underlined by great impassioned song writing... If you are a music biz person, investigate them now- they are going to be massive. My instinct feels it and that's never wrong'. John Robb
